SUMMARY INDIVIDUAL

Accepting responses

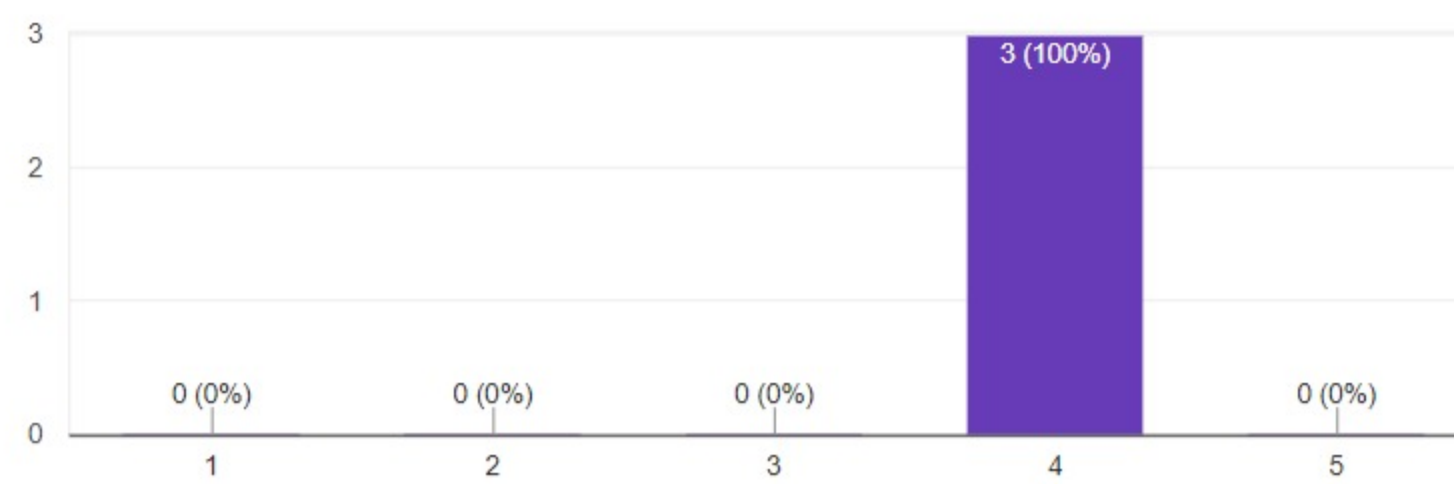

What is your first impression of this interface ? (please answer with a word or two)

3 responses

- Impressive
- hi tech
- Cool idea, maybe too much information?

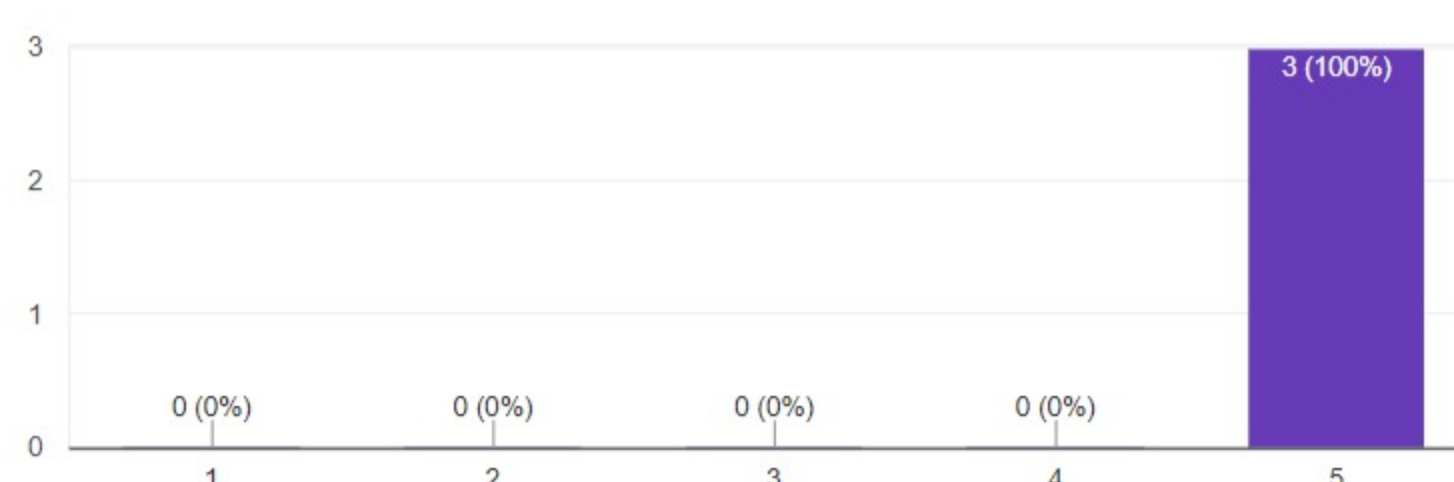

I think the interface provides easy way of navigation

3 responses

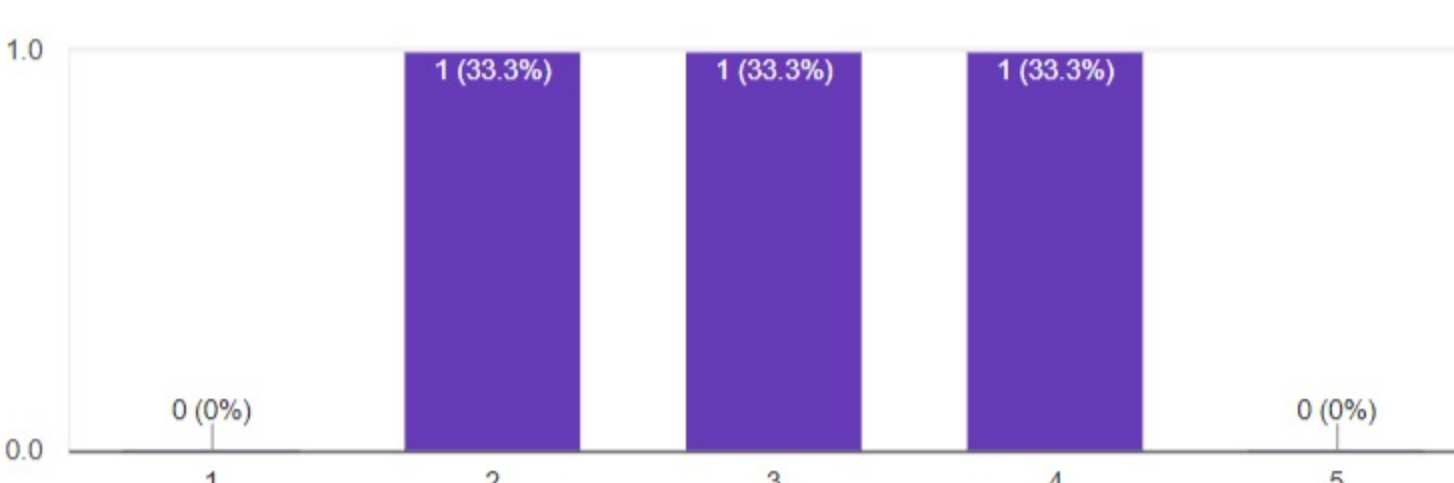

Do you find the interface to be intuitive and user friendly?

3 responses

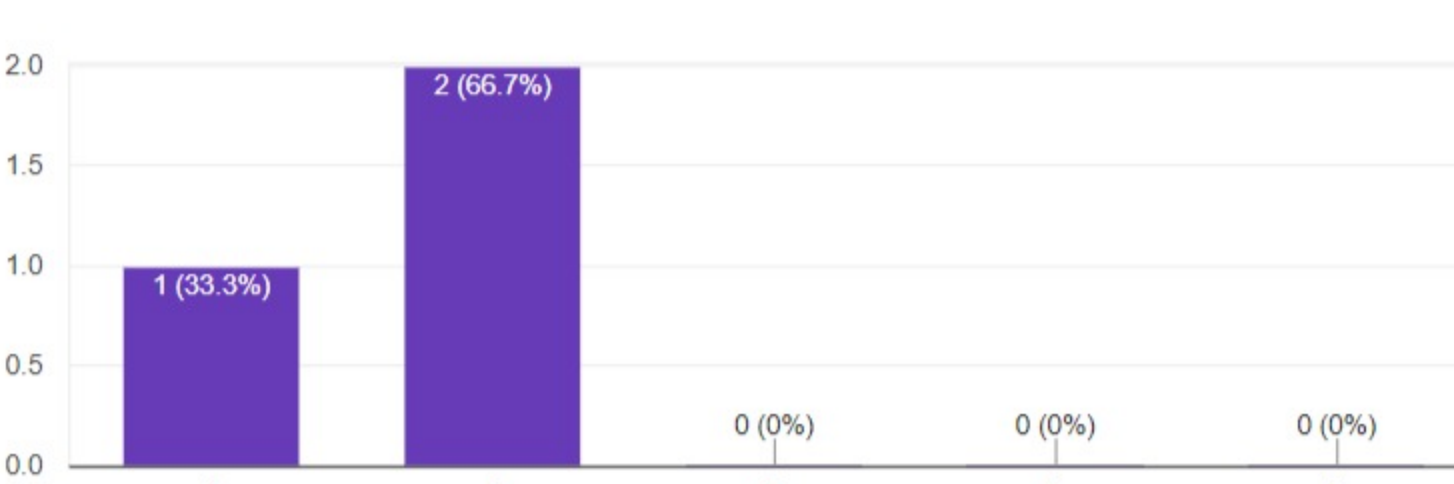

I think that I would like to use this interface frequently.

3 responses

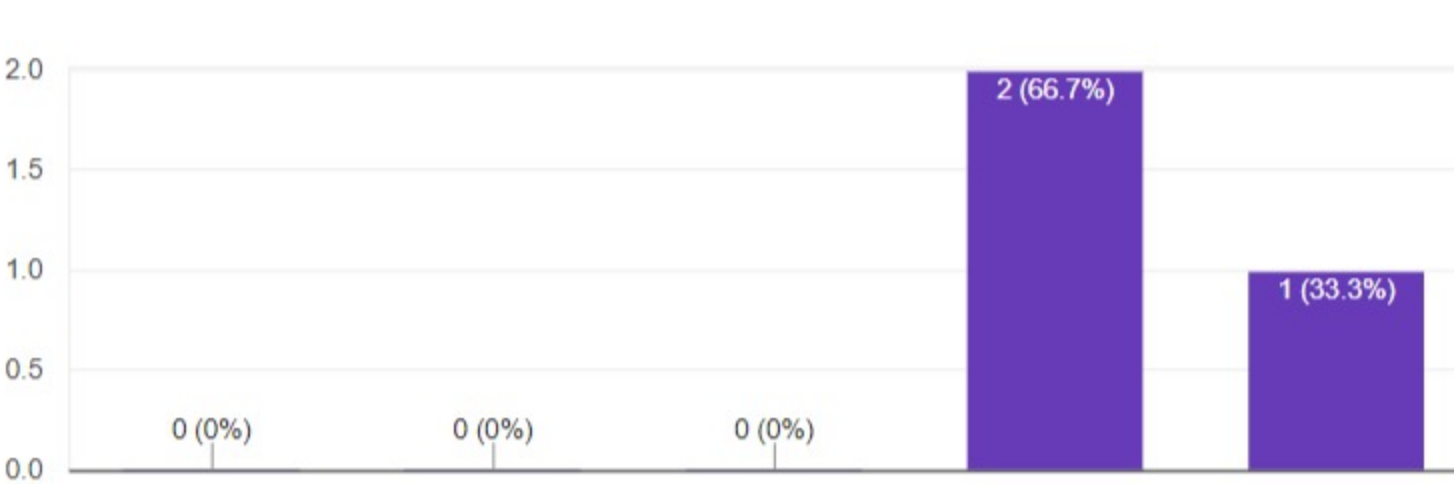

I think the interface seems unnecessarily complex.

3 responses

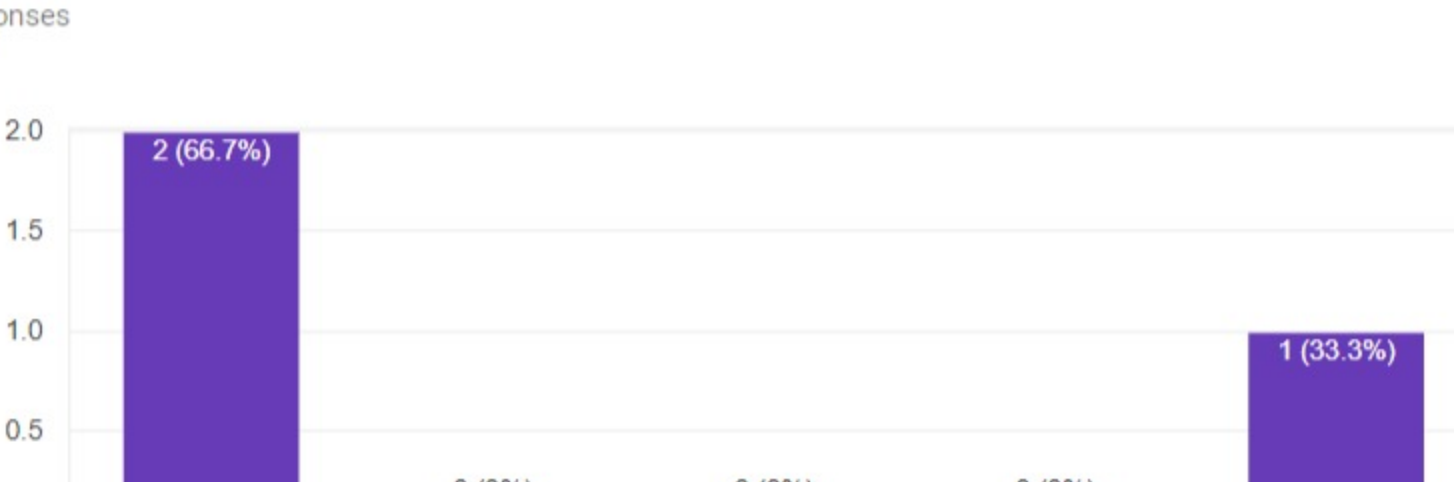

I thought the interface seems easy to use.

3 responses

I think that I would need the support of a technical person to be able to use this interface.

3 responses

I think the distribution of various components in this interface is well allocated (related to the picture above)

3 responses

I found the icons and components used in the interface providing good level of affordance.

3 responses

What could be done to improve the design of the previous interface ?

3 responses

Consider different weather conditions like snow which makes cleaning of the glasses a pain. In case of an accident, how would you watch out for particles going into your eyes?

Choice to hide it

How does the interface work? (Like switching modes, setting navigation)
